

HELGE FALCH

FULL STACK DEVELOPER

INTRODUCTION

Full Stack Developer with a passion for Continuous Integration and Continuous Deployment.

I enjoy the whole journey of a project, writing the code, setting up the tests, and putting it all in pipelines and deploying it.

Always chasing new knowledge in my conquest to master it, never afraid to pick up something new, or something old that scares others away.

SKILLS & TECHNOLOGIES

Go, PHP, Svelte, Vue, Lit, Angular, TypeScript, Python, Infrastructure as Code, CI / CD Pipelines, Linux, System Monitoring, Containerization, SQL, Virtualization, Elastic Stack, Azure, Project Management, RISK, Compliance, Change Management, Incident Management, and a whole lot more.
